CHOIRS AND ORGANS: their proper Position in Churches. With 13 Illustrative Plans. By WILLIAM SPARK, Organist and Choir Master, Leeds. Price 1s. 6d.

"The subject of Mr. Spark's brochure has been unaccountably neglected in this country. Important, as it evidently is, to secure a proper position for choirs and organs in our ecclesiastical buildings, there is, it appears, no work extant on the subject in the English language to which the inquirer may refer for suggestion and guidance. The Lecture under notice, originally delivered before the Yorkshire Architectural Society, and now published by Mr. Spark in a separate form at the request of several members of that society, is a useful attempt to supply this desideratum. Clearly and concisely written, it furnishes, in a compact form, a great deal of useful information and many practical suggestions on the subject to which it relates. The remarks of the author are, in many cases, illustrated by diagrams."—*Leeds Times*.

Also, by the same Author,
